ADE BRANCH MEMORANDUM NO. 5C1.3  
Supplement No. 2

To : All ADE Branch Stations  
From : P. J. Anderson, Chief of Branch  
Subject: Monthly Report of Station Activities

I PURPOSE

The purpose of this supplement is to emphasize the type of information pertaining to the accelerated brucellosis eradication program which is needed and which should be included in the monthly report of station activities.

II GENERAL

In coordinating the national program, we are particularly interested in knowing if all parts of the accelerated program are being adopted in the State. If not, what parts are not being applied and why. Also we would like to know when a State brucellosis committee is established in those States in which one is not already operating. There should also be included in the statement on brucellosis, an evaluation of the progress of the accelerated program in your State.

The above requested information should be in addition to that ordinarily furnished.

A handwritten signature in cursive script, appearing to read "P. J. Anderson".
